All quotes are valid for 14 days from the date of quotation. Truckline services reserves the right to amend any pricing subject to the current global supply chain issues and increased chassis lead times.

Potential revised pricing will be communicated to the customer 8-12 weeks prior to the commencement of the estimated build date where Truckline services can demonstrate price increase incurred since the acceptance of the original order and the arrival of the chassis.

Truckline services is not liable for any loss or damage in relation to any global supply chain issues, including changes to legislation, legal processes, standards or regulations. The customer shall indemnify Truckline services against all costs or liabilities incurred in relation to these issues and all subsequent effects.

The chassis wheelbase/length/overhang must be suitable to receive the specified body length without modification. If additional work is required, it will be quoted separately once the wheelbase has been confirmed by the dealer.

The wheelbase / diminishing load calculations are the responsibility of the supplying manufacturer.

The prices quoted are exclusive of VAT, valid for 14 days and will be reviewed upon receipt of PO.

Full terms and conditions available upon request.

Kind Regards

Truckline Services Ltd.
