

Recovery Equipment

---

Dave Bland Engineering would like to thank you for your recent interest in the supply and fitting to your chassis one **4000 KG slide and tilt body, fitted with a 2000 KG rear-mounted spec lift**. We have pleasure in enclosing your specification details as required.

## Main Slide Body Design and Construction

### **4000 KG CAPACITY STEEL BODY**

- ✓ This body capacity will depend on chassis type and overall GVW
- ✓ Body is generally built on chassis from 7tonnes to 10 tonnes

### **DIMENSIONS**

- ✓ Body 22'
- ✓ Overall width of body can be constructed up to 2300mm

### **BEACON ARCH AND FRONT NUDGE BAR**

### **ALL STEEL BODY**

- ✓ With fully welded steel treadplate flooring
- ✓ Beacon flyer and front nudge bar
- ✓ Nylon wear strips between body and subframe
- ✓ Twin tilt body rams
- ✓ Double acting hydraulic cylinders with 70mm bores
- ✓ 12ft slide off ram

### **PLASTIC TOOL LOCKER**

- ✓ 36"x20"x20" fitted to near-side of chassis (where possible)

### **BODY SIDE CAPPING**

- ✓ Stainless steel capping fitted to protect body paintwork and is finished with an anti-slip safety tape

### **VEHICLE SECURING**

- ✓ 12 deck mounted lashing tie down rings
- ✓ Set of 4 deluxe transporter tie down straps with soft restraining loops

### **90" WINCH BOBBINS**

- ✓ Enables side winching for the recovery and loading of badly damaged vehicles

## Spectacle Lift

### **2000 KG CAPACITY**

- ✓ Gold zinc coated spectacle lift head
- ✓ Fitted with flip over head for easy stowage when not in use

- ✓ *Spec beam is powered in and out with a manual safety lock in the open and closed position*
- ✓ *Twin double acting hydraulic cylinders with 70mm bores*
- ✓ *1 pair of spectacle lift tie down ratchet straps*
- ✓ *1 pair of wheel space reducing bars are fitted to enable the transport of vehicles with small diameter wheels*
- ✓ *50mm tow ball*

## Hydraulic System

- ✓ *Vehicle gearbox PTO will be fitted with a hydraulic pump*
- ✓ *Chassis mounted hydraulic tank with in-built cartridge filter*

### **5 BANK SPOOL VALVE SET UP AS FOLLOWS**

- ✓ *Winch control with electro hydraulic control*
- ✓ *Slide body on/off*
- ✓ *Tip body up/down (inc. auto tilt)*
- ✓ *Spectacle lift up/down*
- ✓ *Spec beam in/out manual safety lock*
- ✓ *Fully enclosed stainless steel spool valve cover*

### **8000 lb HYDRAULIC WINCH**

- ✓ *Fully compliant to new EN 14492-1 regulations*
- ✓ *With radio remote and manual override lever*
- ✓ *3560kg line pull - Rated line pull of 34.9kN*

## Electrical

- ✓ *Vision Alert LED Light bar*
- ✓ *1 pair of upper flyer mounted work lamps*
- ✓ *1 pair of lower flyer mounted work lamps*
- ✓ *1 pair of flyer mounted stop/tail/indicator lamps*
- ✓ *Radio remote winch control*
- ✓ *Tow ball & 7 pin plug*
- ✓ *24/12V dropper fitted to 7 pin plug*

## Finishing

- ✓ *Primed and painted in 2 pack*
- ✓ *Under body wax-oiled*

## Type Approval

- ✓ *Issuing of Vehicle Type Approval certification to comply with current EU legislation*

**SUPPLIED, PAINTED AND FITTED**

**£ 37,400.00 + VAT**

*Should you like more information, or if we can be of further assistance to you, please do not hesitate to contact us accordingly.*

*Assuring you of our best attention at all times,  
Yours faithfully*
